Nano-Air

Warm, stretchy and breathable, Nano-Air® styles feature FullRange® polyester insulation and a durable shell fabric with a soft hand so you can wear them for the entirety of any aerobic, start-stop mission. Imported.
Getting to 100%

100% USE RECYCLED MATERIALS
100% FAIR TRADE CERTIFIED™ SEWN
100% PERFORMANCE EVERY WATERPROOF SHELL WE MAKE

The excuses: It’s too hard, it’s too expensive, nobody makes the fabric, it doesn’t perform. The reality: This is no longer true.

As a company, we strive to uphold an uncompromising dedication to quality. We make products that perform, in the conditions they were made for—from belay parkas like the Grade VII, to stormproof shells, to our Nano-Air insulation for moving fast in cold conditions. And we design our products to last, because the longer you can keep something, the less likely you are to replace it.

An excerpt from our 1991 catalog highlights both points: “A person is not likely to fashion a spear for themselves whose point will break off in midflight: nor is someone who weaves their own basket likely to make it out of rotted straw. Similarly, if one is sewing a parka for a mate who is about to go hunting for the family with a temperature at 60 below, all stitches will be perfect.”

Quality and performance have always been a given, but we also aim to make all of our technical products with recycled material. Doing this requires converting our virgin synthetic materials to recycled ones without compromising on performance.

But first we had to prove to a wider audience what our rigorous lab and field testing showed—that the recycled fabrics we were using performed just as well as their virgin counterparts. We tested the hell out of hundreds of fabrics, and with the help of new suppliers, we’ve successfully converted over 300 products from our technical line to recycled materials—most of those in the last two years.

And this season that includes the entire waterproof shell line (over 60 styles across our Alpine, Snow and Sportswear collections). That’s a big deal—not necessarily from a technical innovation standpoint, but in terms or capacity. In order to meet our 2020 goal, there has to be a ready supply of recycled fabrics. Luckily, relationships with our supply chain were strong and longstanding—we shared values, they trusted our direction and they were willing to figure out how to make it happen.

Each shell is a multistage, multinational endeavor. It begins its life as recycled plastic chips that are collected in Italy and Slovenia. Yarn spun from these chips is then woven and finished in Japan, and the final garment is cut and sewn in Vietnam. The ability to collaborate with our worldwide partners and with every material type required for every waterproof shell has given us increased confidence that we can bring people together to get shit done.

The conversion was slow and gradual for a long time, then sudden. Now we’ve reached a point where we can draw a line in the sand that every shell uses recycled fabrics—and is Fair Trade Certified™ sewn—or we simply don’t make it.
Better Sweater Jacket

Combining the aesthetic of wool with the easy care of 100% polyester fleece, Better Sweater Jackets are made with knitted fabric dyed with a low-impact process that significantly reduces the use of dyestuffs, energy and water compared to conventional dyeing methods. Fair Trade Certified™ sewn. Imported.
Our easy-care Better Sweater® Vests and 1/4-Zips have a sweater-knit face and a moisture-wicking fleece interior that’s spun from heathered yarns. Fair Trade Certified™ sewn. Imported.
Lightweight and stuffable, our Classic Synchilla® styles are made with plush 100% recycled double-sided fleece (with an anti-pilling finish) that insulates without overheating. Fair Trade Certified™ sewn. Imported.
Lightweight Micro D® insulation is made of 100% recycled polyester microfleece that feels warm and soothing against your skin, wicks moisture, dries quickly and allows a full range of motion. Fair Trade Certified™ sewn. Imported.

Stories
You Wear

A look back at six years of Worn Wear, and why we still think it’s worth repairing your clothes for free.

Worn Wear was born in 2013 from the realization that, no matter how responsibly we build our products, nothing can beat keeping gear in play as long as possible. Clothing is not usually the first thing that comes to mind when we think about waste, but in 2015, landfills received 10.5 million tons of textiles. Not to mention the energy footprint required to create new stuff to replace the old.

Repair is radical because it directly opposes the linear economy’s dependence on disposable products and planned obsolescence. Worn Wear promotes a circular economy: keep an object in use for as long as you can, get the most value out of it, then recover and repurpose the material at the “end” of its life.

We believe in this so strongly that our team has been continuously cruising around the country in a fleet of mobile repair shops with the mission of fixing your stuff—or teaching you how to fix it—for free. We see it as a small investment in a habitable planet.

According to our customers’ Worn Wear® blog posts, there are other reasons for holding on to well-used clothing, and they have nothing to do with landfill statistics. Folks say that clothes tend to jog their memories about good times they’ve had while wearing them. There’s the twinkle-eye joy of passing them on to the next generation. They are, after all, the stories we wear.

Warm and highly breathable, with outstanding stretch and durability, R1 insulation is made with exclusive Polartec® Power Grid® fabric (93% recycled polyester/7% spandex) with Polygiene® permanent odor control. Fair Trade Certified™ sewn. Imported.
The perfect cold-weather crosslayer, our R2® TechFace Jacket provides warmth and breathability with the added benefits of abrasion and weather resistance. Made with 94% polyester (77% recycled)/6% spandex breathable stretch double weave with a DWR (durable water repellent) finish. Fair Trade Certified™ sewn. Imported.
Adze Jacket

For high-energy activity in cold, windy conditions, the Adze Jacket’s 2-layer stretch-woven polyester/spandex shell stops wind and sheds snow, and its bonded fleece grid interior wicks moisture and adds light insulation. Imported.
We Can Do Well and Good

B Corp: Harnessing the Power of Business
Society’s most challenging problems cannot be solved by government and nonprofits alone. The B Corp community works toward reduced inequality, lower levels of poverty, a healthier environment, stronger communities and the creation of more high-quality jobs with dignity and purpose. By harnessing the power of business, B Corps use profits and growth as a means to a greater end: positive impact for their employees, communities and the environment. Find out more at: bcorporation.net.

1% for the Planet*: Smart Environmental Giving
1% for the Planet is a global movement inspiring businesses and individuals to support environmental solutions through annual memberships and everyday actions. It advises on giving strategies, certifies donations and amplifies the impact of its network. Since its inception in 2002, members have donated some $200 million to nonprofit environmental groups. Learn more at: onepercentfortheplanet.org.

Let My People Go Surfing: The Education of a Reluctant Businessman, Including 10 More Years of Business Unusual, by Yvon Chouinard (BK067 Paperback)

Now revised with updates from the last 10 years, this beloved book is part memoir, part manifesto. Legendary climber, businessman and environmentalist Yvon Chouinard, founder and owner of Patagonia, describes his life and lays out the principles he used to build Patagonia into a global business—a business that has an environmental mission and is a fun place to work. 272 pages with full-color photos throughout.

Family Business: Innovative On-Site Child Care Since 1983, by Malinda Chouinard and Jennifer Ridgeway (BK760 Hardcover)

Family Business illustrates what high-quality child care looks like and why providing on-site child care to working families is at the heart of responsible business today. 396 pages with full-color photos throughout.

The Responsible Company: What We’ve Learned from Patagonia’s First 40 Years, by Yvon Chouinard and Vincent Stanley (BK230 Paperback)

Chouinard, Patagonia’s founder, and Stanley, an editor of our Footprint Chronicles, draw on their 40 years’ experience at Patagonia—and knowledge of current efforts by other companies, large and small—to articulate the elements of responsible business for our time. 144 pages.

Patagonia Business Library (BK775)

Family Business: Innovative On-Site Child Care Since 1983, by Malinda Chouinard and Jennifer Ridgeway (BK760 Hardcover)

Family Business illustrates what high-quality child care looks like and why providing on-site child care to working families is at the heart of responsible business today. 396 pages with full-color photos throughout.

Some Stories: Lessons from the Edge of Business and Sports, by Yvon Chouinard (BK805 Hardcover)

With articles on sports—from falconry to fishing and climbing to surfing, with musings on the purpose of business and the importance of environmental activism, Yvon Chouinard’s Some Stories is an eclectic portrait of a unique life lived well. The result is more of Chouinard’s iconoclastic and provocative thinking, his skilled storytelling and sense of humor, and a picture of the evolution of his thoughts and philosophies accompanied by illustrative photos, many never published before. 464 pages with full-color photos throughout.

What could be simpler than eating? We all do it a few times a day. Yet that simple act can change our future. At Provisions, everything we make has a reason for being: to fix a broken food system. We believe that industrial production methods are destroying the earth, so we’re leaving this extractive mentality behind and moving on to a regenerative one. When we grow and harvest our foods, we use organic farming practices that restore nutrients to the soil and remove carbon from the air. We fish using techniques that protect endangered species and habitat. We’re working to give back at the same time that we take. So when you eat anything we produce, you’re saying no to Big Ag, to poisoned landscapes and damaged oceans—to the status quo. You’re eating to save our home planet.

Thoughtful gifts. Wide selection.

Patagonia Action Works

Answer with Action

For almost 40 years, Patagonia has supported grassroots activists working to find solutions to the environmental crisis. But in this time of unprecedented threats, it’s often hard to know the best way to get involved. That’s why Patagonia Action Works connects individuals to organizations working on environmental issues in the same community.

How can you get involved?
It’s now possible for you to discover and connect directly with environmental action groups and get involved with the work they do. To see the events, petitions and skilled volunteering opportunities near you, go to: patagonia.com/actionworks.
Qualifications and How to Order

Minimum Order Size
Call for opening order minimums. All subsequent orders must be 10+ units. Discounts reflective of order size.

Eligibility
For each order, we require disclosure as to the type of company whose name will appear on the Patagonia product and how the product will be used. We reserve the right to refuse service.

Product Selection/Availability
The products shown in this catalog are available for bulk purchase. If there are other Patagonia products you’re interested in, please call for availability.

Samples
Samples can be returned within 90 days of your order for a refund as long as tags are still attached and items are in resellable condition.

Ordering Info
For new customers, please complete our online application. For returning customers, email your order for processing. All orders are subject to acceptance and availability.

Sales Tax
Patagonia is required to charge sales tax for all orders in the US. If your company is reselling the product and has a resaler’s certificate, a copy must be emailed with the order.

Payment Methods
We accept checks, Visa, MasterCard, American Express and Discover. Credit terms are available for applicants who qualify. Please contact your Corporate Sales representative for a credit application.

Shipping
Our standard shipping method is UPS Ground. Two-day and overnight shipping options are available for an additional charge. Shipping charges will be calculated and added to your order invoice.

Returns
Patagonia guarantees every product we make. Returns not related to quality are accepted for 30 days with a 15% restocking fee. No returns are accepted past 30 days from date of invoice.

Returns, Exchanges and Repairs
All returns, exchanges and repairs must be pre-authorized by a Patagonia Corporate Sales representative. Please email for a return authorization (RA) number. The RA number must be prominently displayed on the outside of all return shipping boxes.

Unwanted Mailings/Change of Address
If you are moving, send us your old and new addresses. If you’ve received this catalog in error or received a duplicate, please call us. If you don’t want to receive any unsolicited mailings from any company, write or call: DMA Mail Preference Service, P.O. Box 9008, Farmingdale, NY 11735-9008.

Please Be Careful
Synchilla® fleece, Regulator® insulation and Capilene® fabrics, like most synthetics, will melt or burn if exposed to flame or direct heat. They are not flame-resistant. Do not use them near any direct source of heat or flame.

Embroidered, screen-printed or altered products are eligible for warranty service as long as the product defect is not the result of those modifications. The issuance of credit or replacement product shall be at the sole discretion of Patagonia.
