Our Mission

Patagonia's mission is comprised of three elements: Build the best product, cause no unnecessary harm and use business to inspire and implement solutions to the environmental crisis.

To that end, we design top-quality, multi-functional clothing and gear built to last for years and seek to reduce the environmental and social impacts of those products wherever it makes sense. Organic cotton, recycled polyester, Traceable Down, bluesign® approved fabric and Fair Trade Certified™ styles are just a few examples you'll see in this catalog.

Our journey to build the best product has also led us to create some new food products, as nowhere is the social and environmental crisis more apparent than in the way edibles are brought to our tables. The Buffalo Jerky, Fruit + Almond bars and tsampa soup we offer you through Patagonia Provisions™ are not only healthy and delicious packaged foods, but our attempt to help repair the broken food chain.

We're honored to work with customers who share and amplify our commitments to social and environmental responsibility, and we invite you to join us on our journey. At Patagonia, we don't hide behind our numbers, we proudly share them as evidence of quality in everything we do.
